

Hayward E-KIT

(For Aqua Rite, Aqua Rite Pro, & SwimPure Models)

The Hayward E-KIT contains typical components required to mount and connect the input wiring to the Hayward Aqua Rite, Hayward Aqua Rite Pro and Hayward SwimPure chlorinators. Note that installations vary and more materials may be required to complete the installation of your chlorinator.

The E-KIT contains the following items:

- (1) WIRING HARNESS (Sealtight conduit containing 3 12 AWG conductors)
- (3) CABLE TIES
- (1) BONDING WIRE (8 AWG bare copper)
- (3) WIRE NUTS
- (2) SCREWS

WARNING: Power must be shut off at the circuit breaker before performing any wiring. Be sure to follow Local and NEC electrical codes. To provide safe operation, your chlorinator must be properly grounded and bonded.

Refer to the Installation section in your chlorinator manual for specific wiring instructions for your model.
