

NEW

V-Flex™ Upgrade Kit

FOR POOLVAC/ NAVIGATOR®

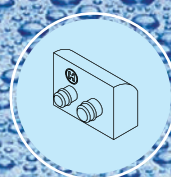

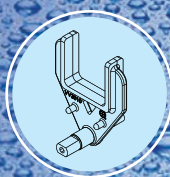

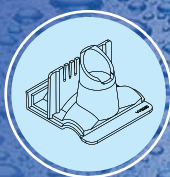

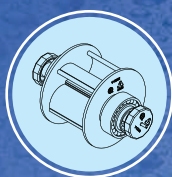

Internal accessory to enhance the performance and reliability of most PoolVac and Navigator® Cleaner models.

Upgrade your PoolVac or Navigator® Cleaner with the latest patented V-Flex™ variable vane turbine technology. This new design allows for improved handling of larger debris for virtually clog-free cleaning and superior low-flow suction performance (perfect for use with variable speed pumps) with fewer moving parts to maintain.

Featuring Patented
V-Flex™ Variable Vane
Technology

wings & shoes
INCLUDED

**Turns out you *can* teach an
old cleaner new tricks.**

**Upgrade existing PoolVac and Navigator® cleaners with
powerful V-Flex™ Technology.**

Designed with breakthrough variable turbine vanes that automatically adjust to accommodate larger debris, V-Flex™ Technology virtually eliminates clogs- and all the hassles that come with them.

It even maximises suction power at any flow for flawless results with any pump.

V-FLEX UPGRADE KIT- 20-VVX3000CKITWH
