

# NEW POOL PUMP REGULATIONS ARE HERE. HAYWARD® HAS YOUR BACK.

## FIVE WAYS HAYWARD IS HELPING POOL PROFESSIONALS TRANSITION TO NEW DEPARTMENT OF ENERGY STANDARDS.

### 1 THEY HAVE THE BROADEST RANGE OF DOE-COMPLIANT POOL PUMPS—including SINGLE-SPEED OPTIONS.

Contrary to some industry misconceptions, many Hayward single-speed pumps are DOE-compliant and will continue to be manufactured and sold. More specifically, Hayward TriStar®, Super Pump® and MaxFlo® XL single-speed pumps 1 HP and lower meet the new DOE energy-efficiency standards and are fully compliant.

### 2 THEY'RE DESIGNING PRODUCT SOLUTIONS THAT EXCEED THE NEW EFFICIENCY REQUIREMENTS.

Hayward is the industry leader in energy efficiency. In fact, their TriStar VS 900 ultra-high efficiency pump boasts the highest WEF rating available, at a whopping 12.9.\* Their new XE ultra-high efficiency pumps also offer superior efficiency at a purchase price up to 1/3 lower than similar pumps.

### 3 THEY'RE FOCUSING ON EDUCATION.

Hayward has taken a leadership approach to the DOE regulatory changes, working to educate both the trade and homeowners on what it means for them. By diving into new terms and concepts, explaining what they mean and why they're important, they're helping the trade make informed decisions about their businesses and helping homeowners make the best choices for their pools.

### 4 THEY'RE MAKING KEY INFORMATION AVAILABLE.

Hayward has a dedicated DOE Resource Center at [hayward.com/regulations](http://hayward.com/regulations) that offers fact sheets, FAQs, videos, infographics, blog articles, whitepapers, recorded webinars, tradeshow class trainings and more. This site is updated regularly with key DOE updates, important news and other useful resources for continued help on navigating these changes.

### 5 THEY'RE KEEPING THE CONVERSATION GOING.

Hayward has created a dedicated email address for questions on the regulations. To get in touch with their experts, send an email to [DOERegulations@hayward.com](mailto:DOERegulations@hayward.com).

Visit [hayward.com/regulations](http://hayward.com/regulations) to learn more about Department of Energy regulatory changes.

TRISTAR® VS 900  
ULTRA-HIGH EFFICIENCY PUMP

\*Claim based on TriStar® VS 900 pump rating per Dept. of Energy efficiency metrics as of June 1, 2021. Visit [hayward.com/regulations](http://hayward.com/regulations) for details.
