Sheer 500 Water Cascade

Elevate the visual and acoustic appeal of your pool surroundings with premium water features from Hayward.

The Sheer 500 can be

customized to any pool to create an enchanting falling water effect. Combine with Hayward's LED lighting to create a unique blend of color with the beauty of falling water.

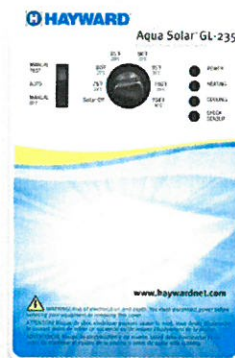

With the ability to be installed in both straight and curved applications, the Sheer 500 can conform to any pool and spa shape.

Rear or bottom connection options make installation quick and simple. Available in lengths from 1ft – 5 ft and with 1" and 6" lips. Contact Hayward IMG for custom options.

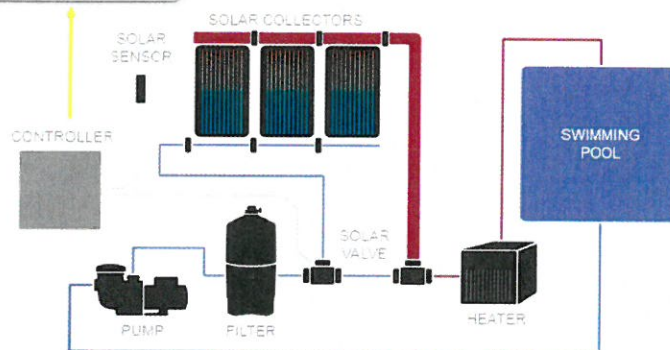

Hayward AquaSolar® GL-235 Solar Controller

Hayward solar controllers are dependable and user friendly. Hayward solar controllers help maintain the perfect water temperature without using your heater.

The GL-235 is America's best-selling microprocessor based solar control designed for easy and dependable operation.

Solar Panel

Solar controls work with solar panels to heat or cool your pool and spa using nature's freely available energy. You can enjoy significant savings and a better pool and spa experience, while being environmentally responsible.

The GL-235 can be paired with any type of solar collector system including solar panels, solar coils, etc.

Other models of Hayward solar controllers which include pump controls are also available.

Choose Hayward's TriStar™ for Top Performance and Features

Hayward's TriStar™ has the latest advances in heavy duty, high performance pump technology.

Exclusive features include a Tri-Lock lid for easy lid removal without tools, extra strong motor mounting bolts that cannot become damaged on over tightening and advanced impeller design to assure no loss of impellers during reverse flow situations.

TriStar™ offers the most advanced pump features designed with performance and value from the world leader - Hayward Pool Products.

SwimPro™ by Hayward® is the Price Fighting Choice

Hayward introduced the value priced SwimPro high rate sand filter range to compete well against low cost Asian and European produced filters.

The 50psi working pressure SwimPro is manufactured in the United States of rugged, durable, color fast molded polymeric material to assure long life.

SwimPro filters include a Made in USA SP714 multi-port valve and an innovative under drain that assures balanced flow to maximize the filter's backwash performance.

Choose SwimPro by Hayward for affordable, dependable and efficient pool filtration. Manufactured in the United States.

ProHayward Transformers Available for Immediate Shipment

ProHayward low voltage swimming pool transformers are the preferred transformer around the world.

12V/300W ProHayward
Transformer

CE listed ProHayward transformers are designed to provide safe 12-volt electrical supply to underwater lights and low voltage fixtures of all types.

Advanced circuit protection resets automatically. The weatherproof housing features a separate wiring compartment for the fully encapsulated high and low voltage circuits.

Available in 300 & 600W as well as 12, 13 & 14V configurations.
