## OMNIHUB® Automation BETTER Control Of Your Pool System

The **Hayward® OmniHub®** is superb value and the easiest way to add automation for new and existing pool systems.

With the **OmniHub®** you can access, manage, and schedule pool functions from anywhere via easy-to-use iOS and Android smartphones and voice-controlled devices, including Amazon® Alexa and Google® Assistant.

Use a single system to control a host of equipment including variable-speed pumps, heaters, pool/spa lighting, spa equipment, **AquaRite®** salt systems, booster pumps, landscape lighting, chemical feed pumps, valves and water features as well as provide pH/ORP monitoring and level sensing.

The **OmniHub®** uses a control pad touchscreen as the main interface. Additional control is possible through any browser via [haywardomnilogic.com](http://haywardomnilogic.com)

**OmniHub®** Controls 3 VS pumps without a relay, 2 valves, up to 3 Smart Relays, one heating system. Works with wireless & spa side remotes.

App only. Phone not included.

Bundle Hayward® Energy Efficient Variable speed pumps and Aquarite® systems with **OmniHub®** to add total control at significant cost savings.

Use with **OmniDirect™ ColorLogic®** LED lights along with a **SmartPower®**

Transformer to create exquisite ambience with additional light shows, colors and dimming control.

**ColorLogic®  
Laminar  
Glassy Water Arches**

The **Hayward ColorLogic® Laminar** generates a clear glass-like rod of arcing water from the deck to pool.

It's the only laminar with a height adjustable cover and multiple lid color options to help it blend with the surroundings.

A simple integrated flow adjustment eliminates the need for dedicated valves for each laminar allowing complete control of the height and distance of the water stream without the need for tools.

ColorLogic 320

Illuminate the **ColorLogic®** with **ColorLogic® 320 LED** lights for a striking effect.

**TigerShark®  
- Robotic Pool Cleaner**

The **Hayward TigerShark®** is renowned for its solidity and efficiency. It cleans the bottom, walls and waterline.

With its ASCL microprocessor (Adaptive Seek Control Logic), it calculates the shape and size of your pool to clean every spot efficiently.

The Hayward TigerShark® is fully automatic, with no need for an exterior bag or pipe.

Available in the Quick Clean (QC) version for full cleaning in under 2 hours and with an optional foam-brush for pools with tile finish.

The **TigerShark<sup>2</sup>** with a 100ft cable and longer cleaning cycle is available for commercial pools and large pools.

**PARALEVEL™  
AUTOMATIC WATER LEVELER**

An innovative water leveler that continually works to ensure that your pool or spa is at its ideal level with the level being monitored and adjusted automatically.

**Paralevel's** "posi-click" adjustment makes it easy to make a manual adjustment.

Paralevel offers "SmartSensing", which means it will ignore water sloshing in the pool as it only senses the pools true level.

"SmartSensing" also protects **Paralevel** so it will not cycle on and off rapidly, like other levelers. This limits the potential for premature failure and eliminates loud water hammer that could lead to damage to plumbing.
