April 14, 2023

Features and Enhancements

New in this release

Firmware update for improved omni direct communication with all Hayward lights.

Smart Transformer Firmware Revisions Included in R4.4.1 Release

Smart_Transformer_AP_R0404001 – Smart transformer device

Upgrade Smart Transformer firmware to R4.4.1:

1. **Upgrade the MSP to the latest version of firmware.**
2. Upgrade all components to the latest firmware.
3. Insert a USB drive into your Omni controller usb port.
4. Press the down arrow at the bottom of the first service mode screen and then select “Upgrade”
5. Select <SMART POWER> from the list of devices and press the checkmark.
6. Next press <USB>, then navigate to the file <SMART_TRANSFORMER_AP_R0404001>, then press the checkmark.
7. Next, insert the usb containing the <SMART_TRANSFORMER_AP_R0404001> file into the usb port on the smart transformer and upgrade the transformer.
